Dear Chairman Cohen, Chairman Gresko and Distinguished Members
of the Environment Committee,

I am writing in support of House Bill No. 5145 - AN ACT CONCERNING
THE USE OF PORTABLE WASTEWATER CONTAINERS.

We have been seasonal campers for 10 years and counted on the blue
totes to properly dispose of our waste water since we don't have
sewer. Taking these totes away has caused more of a financial burden
since we now have to have to pay to have our tanks pumped out
weekly. There are situations where our tanks become full therefore we
have to pay extra for an emergency pump out. This situation would
have been alleviated if we could have done our own tanks.

We have been doing it for years and we have not seen anyone having
an issue to properly dispose of their waste water. Having these totes
available for campers to use will lessen the likelihood of people illegally
dumping their waste water on the ground or into the river.

Thank you for your time and consideration.

Cindy & Dave Goodline
